

Safe Return to In-Person Instruction Plan

MAINTAINING A HEALTHY AND SAFE CAMPUS

Face Masks

For everyone's safety, face masks are recommended on campus, especially in times of high transmission rates. However, face masks are not required on campus, as Arizona law prohibits public schools from requiring masks. If, in the future, the school moves to require masks on campus, an opt-out provision will be available. If a mask is worn, it may be solid in color or have small, happy prints and should be washed or replaced daily.

Sanitary Practices

Handwashing and the frequent use of hand sanitizer will be encouraged on campus. Students will practice proper respiratory etiquette, which includes properly covering sneezes and coughs and using and disposing of tissues.

New handwashing stations have been added to the campus. Hand sanitizer stations are positioned in every classroom and throughout the school. Signage is posted to promote safe and healthy practices.

Cleaning Facilities

The campus is cleaned and sanitized throughout the day and in the evenings. Lunchrooms are cleaned between gatherings. Special attention is given to restrooms, common areas, and water fountains to ensure safety.

Daily Operations

While on campus, we will make every effort to keep students safeguarded. If your child is suspected of being sick or is in any way displaying symptoms of COVID-19, please self-isolate to keep our school population safe. Accommodations for children with disabilities will be made following federal guidelines.

We will use a touchless scanner to screen for temperatures at the beginning of each school day during times of high transmission. Any student exhibiting any coronavirus-related symptoms will be sent to the nurse for evaluation. The school employs an experienced, licensed health professional who is on campus throughout the school day.

We will maintain social distancing to the extent to try to minimize contact with others.

Online, Hybrid, or Remote classes

Reid Traditional Schools will not offer online, virtual, or hybrid classes. We have returned to on-campus learning. However, in the event that an entire classroom or campus is closed at the direction of a State agency for 6 or more school days as a result of a COVID outbreak, the school may temporarily move operations online until the situation is resolved, pending an approved ITM application.

ACTIONS TAKEN IN CASE OF POSITIVE TEST

If there is a confirmed COVID exposure in any class, we will notify parents, as we do for other contagious diseases such as strep throat or measles. Parents may choose to self-isolate if their child was in close contact with the affected student. We will ensure that a student on quarantine will have daily assignments just like with other planned absences. Of course, we will follow mandates from State authorities regarding contact tracing, isolation, and quarantine as situations develop, to the extent feasibly possible and allowed by Arizona law.

VACCINATIONS, TREATMENT, AND TESTING

Vaccines for children are now available. The school will not provide or require student vaccines. There are no school reporting requirements regarding COVID-19 vaccines. We will, however, provide information to parents regarding vaccine availability and locations for your convenience.

The school does not perform diagnostic or screening testing for COVID-19. Generally, families should contact their health care provider for information about vaccines, treatment, and testing. The Health Office is available to answer general questions and direct families to other appropriate resources.

SUPPORTING ACADEMIC, EMOTIONAL AND SOCIAL HEALTH ON CAMPUS

The school is dedicated to providing a superior academic environment. Students will be thoroughly assessed at the beginning of the school year and at regular intervals to ensure that they are making the academic milestones necessary for lifelong success. If you have any concerns about your child's academic progress, please contact your child's teacher.

Social gatherings such as carnivals and concerts will resume this school year, unless there are unforeseen circumstances. Children will play freely on the playgrounds and the lunchroom will be open. Sports and clubs that meet before and after school will be paused during periods of high transmission and will resume when administration announces a return to normal operations. Child care programs will continue to be offered.

Some families may have been impacted by recent events. If your family has experienced a hardship or you feel that your child needs extra support, please talk to your teacher. Our staff has been trained to assist with student needs, and we want to help support our families in any way possible.
